

Please be advised that over the next month (or more) as weather permits, there will be workers up on your roof (also known as Building #10) working to replace it. They will be working starting at 8am and may possibly work until sunset.

They may also be on your patio if they need to retrieve any fallen materials. Please stay on the walkways (which is normally required) to assure your safety during this time period. Also please remove any items on your patio to prevent any potential breakage.

The Board is excited to begin the process to replace the roof and hope you join us in this excitement. If you have any questions or concerns, or want to share your excitement as well, you can email: Camelot.rm@gmail.com

Sincerely,

Board for the Camelot Court Condominiums Unit Owners' Association
